

### Van Abels Green Beans

¼ cup sugar

¼ cup vinegar

6 strips of bacon, fried crisp & crumbled

2-16 oz cans of green beans, drained

2 Tablespoons grated onion

½ cup Miracle Whip

Mix and heat everything together except the green beans.... To thicken, add 1 Tablespoon saltine cracker crumbs that have been powdered in the blender or smashed with the rolling pin. Add the green beans. Stir carefully. I then put them in the oven at 300 degrees until they are heated through or until everything else is done.

Happy Thanksgiving!

### Lisa Bongean

I usually double this recipe...using a whole package of bacon and an extra can of green beans making a total of 5 cans.

I do not really measure anything except the sugar and vinegar...and it always turns out.
