BORDERS:

Stitch the inner side borders to the quilt first and then the top and bottom. Repeat with the outer white border by stitching side borders first then the top and bottom.

WOOL APPLIQUES:

Trace appliqué shapes onto fusible web. Cut out fusible web just outside of the drawn lines. Remove paper and iron to correct wools. Cut out on drawn lines.

Remove paper from appliqué and lay them out on the quilt, referring to the photo and layout for placement. Iron with lots of steam always keeping the iron moving - lots of tiny presses. Blanket stitch appliques using corresponding perle cotton threads.

Layer with batting and backing and quilt.

Make 5 strips of 2" wide double fold binding from the 2 FQ's and the inner green polka dot border. Stitch to quilt by machine. Turn over fold to back of quilt and hand stitch.
