Stitching with Linzee...

- The quilting tip I wish I'd learned when I first started is... Well, I did learn it but I didn't do it - squaring up my blocks. When I finally gave in and took that step, it made a world of difference.
- My best advice to new quilters is to... Explore! Try making lots of different blocks with different techniques and notions, to learn what works for you. There isn't just one right way to do it.
- When it comes to quilting/sewing tools, don't get between me and my... Lately it's been Blo-cLoc rulers - they help the components of each block go together smoothly.
- Don't tell anyone, but when I'm sewing, I don't worry about... Being matchy-matchy. I love scrap quilts and look to vintage quilts for proof that including a wide variety of fabrics adds interest and charm.
- My "rock-star stitch group" includes... my sisters. One never sewed much, and the other made beautiful quilts, cut out in the era before rotary cutters, then stopped. They're both retired, and they've returned to sewing, and they're stitching like crazy - zippered pouches, aprons, clothing. I know we could teach one another a lot, as well as have fun.
