Stitching with Stacy...

- The quilting tip I wish I'd learned when I first started is... Always have a guard on your ruler or wear a protective sewing glove. Trust me on this one.
- My best advice to new quilters is to... Join a sew along like Blockheads. You learn so much from other quilters as well as sew blocks you never would have tried otherwise. I have been sewing for a while now and I still learn something new wevery time I start a new sew along.
- When it comes to quilting/sewing tools, don't get between me and my... Iron! Having a great iron is magical.
- Don't tell anyone, but when I'm sewing, I don't worry about... The direction of the fabric print. I love an organic look so I let the fabric choose its direction.
- My "rock-star stitch group" includes... Timothee Chalmet, Andrian Brody and Bradly Cooper because well, who else is going to cheer you up when you have to rip out twelve blocks you sewed the wrong way.
