

Correction for Primitive Bride: The pattern should read 3 1/2 yds Primitive Muslin - blocks and borders - by Moda Fabrics -1040-27. We have changed our in stock patterns. If you have purchased a kit before October 31 2012, your kit only has the 2 1/2 yds in it and you will need one more yard (we did not initially charge for the extra yard in the kit). Please contact us and we will get you the additional yard (this is provided you can send us proof of your purchase, something like a receipt or picture of your kit for example).
